PROGRAM: The camp consists of two periods. The participants will spend the first week together with their host families in order to get an idea of the Finnish way of life. After this, during the second week (camp period), all stay together in a summer hostel. Participants will then learn about the theme: art and nature - and will get acquainted with the town, which has been an important industrial town for the last 150 years and still is. The town is known for its high-quality tissue and greaseproof paper.

In addition to industry, Mänttä is famous for its art. The Art Town is well known all over Europe - mostly thanks to the two Art Museums of Serlachius. In the summer we also have the Mänttä XXIII Contemporary Art Festival (17.6.-31.8.2018) and Mänttä Music Festival (1-5.8.2018), both of which the participants will visit. During the camp period they can test their own skills in creating pieces of art by painting, etc. according to everyone's own interests.

Participants will also learn about the nature in the area by visiting a nature reserve / national park. They will visit also Ähtäri Zoo - and see wolves, bears, deers – and Pandas! On the way there, they visit "the biggest village shop in the world", a huge mall in the countryside. In addition the participants can learn, how to catch fish and row the boat on the lake. The camp period is supervised by two local guides. The language of the summer camp is English.
